LOCAL PAPER MILL ENTER-PRISE.

The American Consul-General, Mi George E. Anderson, of Hongkong, state, that a modern paper mill established by Chinese capitalists, including a number of Chinese in the United States, at Kongmoon, a city on tide water in the Pearl River delta, has recently been put into operation. The plant has been in course of erection for some time under the direction of a Japanese company. The machinery which has been installed is German, though the Japanese concern erecting the plant has me ked, all machines with its mark. American machinery was sought at the time the contract was made for the plant, and several bids were made, but American prices were rather too high, though the quality of American machines was considerable higher than that of the machines purchased. The mill has a capacity of about 15 tons of paper per week. It is using rags and rice straw for its pulp, and the quality of the output so far is considered very sarisfactory. The supply of rags is fair in ou ntity, while the supply of rice straw is practically without limit; the only question being that of price for the product, and the price at present is satisfactory. The new mill has the advantage of water transportation for both its raw materials and its output. It is somewhat significant that the establishment is under the a anagement of a Chinese engineer trained in Japan.

THE CRISIS IN MEXICO.

Standard Oll Company Alleged Instigators.

The Vessische Zeitung (Berlin) has printed in a prominent position a long letter from a correspondent in Mexico, in which the Standard Oil Company is charged with being the real instigator and fomenter of the revolutions in Mexico during the last three years, and President. Wilson is pictured as merely an unwitting puppet in the hands of that American Trust. The object of the Americana, continues the writer, is to get rid of General Huerta at all costs, because ha has sufficient strength of character to thwert their plans for ruling the country as they will.

The Vossische Zeitung, commenting

editorially on this letter, says : The British nation has interests in Mexico running into milliards. As, in view of the circumstances, there can be no question of political ambitions, Great Britain can only be concerned with the developmanh of her commercial relations, for which tranquility in the country is indispenseble. The coergetic attatude of the British Government just before the Presidential Election in Mexico is surely to a certain degree, influenced by the desire for to allow the sources of ou fuel in Morico to full wholly under the control of the Bockefeller world monodiseman interests, which are like A STORY OF STATE OF STATE OF COME tolering contains in the instance sadard with large of Green fribate.

AVIATION FATALITY AT MANILA.

The first aviation fatality at Manila occurred on the 14th ult., when Lieuteh. and C. Perry Rich, of the Philippine Soonty, and an army aviator, fell into the bay from an altitude of 1,000 feet, death quickly rosulting. Lieutenant Rich started out on a trial trip over the fleet, intending later to make an extended flight. by which he hoped to effectually demonstrates the feasibility of dropping projectiles from an airship upon an enemy below. Just previous to the fatal trip a defective cylinder of the hydroplane had to be replaced by a new one, and the aviator got away at 12.30 p.m. He attained a great height, and then two feilow-Lieutenants saw the machine awoop downwards. It righted itself for a few seconds and then dashed into the water, turned over, and disappeared. Lieutenant Rich was speedily picked up, and although he breathed with difficulty. death rapidly supervened, the internal injuries being of an extensive nature.

Racing Car Turns Tertlo Brooklands

Mr. Percy Lumbort, the famous racing motorist, who had sever I world's recorded from the Ashokan Reservoir, in the Catakill to b'a credit, was fatally injured on Cctober Mountaine, N. w York State, to supply 31, at Brooklands, by his racing car New York city, 127 miles anone Tha overturning following, as is supposed, the Catabill Aqueduct, as the onterprise is bursting of a tyre. Mr. Lambert had been known, has been declared by mar y to be spending the week at Brooklands, an exploit for exceeding the much balkedendeavouring to create now records, and of Tanania Canal, because whereas only on the Monday previous, in his 15 the Inter meant (igging drip and h p. Talbob racing wir, he mayo a new dredging channels, the building of the world's record for b th the 50 miles and aquiduct necessitated piercing mountains, the 50 kilometres distances, covering the undermining rivers, traversing deep and former in 27 min. 2 23 sec. and the latter broad valleys, and tonnelling through the in 16 mir. 52 acc. Ho-was the fint motorist in the world to cover over 100 miles in hour, and it was in an andeavor to beat his hour's accord of 10 miles 1,470 yards that he mot his death.

He started on his record-broaking test at 9.20 in the morning, and had covered just over the 50 miles, in 28 min. when the acc dent happened. He was well it side record at the time, and when the accident occurred he was travelling at about 109 gallons. It has cost E3,000,000, and will miles an hour. I'e had just entered the tap 900 square miles of territory. To deep gully behind the members' enclosure, crea e this reservoir seven villages were and had di-appeared from the sight of the watchers, when a loud report was hear'. Immediately three of the Talbot men jumped on separate care and dashed off t see what had happened. They found Mi Lambert lying on the track, while twent yards away, on the edge of the course atood the car on all four wheels.

TERRIBLE 133 VRIES. It was seen that Mr. Lambert was ter ribly hurt about the head, and he wa taken to the offices while medical aid . cs summoned. Dr. Eric Gardinor attend ?: and it was decided to convey the injured man to the Weybridge Ontrage Hospital. He was on his way there on an ambula. e Secute; and an army aviator; fell info lorry when he expired without recovering the bay from an altitude of 1,000 feet, spite of the terrific rate at which Mr. Lan started out on a trial trip over the ficut, bert was travelling, beyond the injuries intending later to make an extended flight. his head there was neither a scratch none by which he hoped to effectually demonbruise on the body.

The only witness of the accident was young man, named William McIntyre, son of Mr. T mas Mc nivre, one of t lodgi keepers at Brooklands, . ttracted 1 " the noise of the racing motor he went the bridge which appear the track near t members' enclosure, and overlooking t spot where the accident happened. had only justigot there when he saw the car coming round the bend on the care banking at what he describes as a treme. dous pace. The car had reached a put within about 100 frarda of him, who all off side back ty, e burst with a loud report. It appeared to him that Mr. I ambert at Hall and Drawing Room Furniture by tempted to slow the car down, and seen ad to keep control of it for about fifty yar

CAR TURNS TURTLE. Suddenly the vehicle started zig zaggi across the track, and after striking the lat m edge of the truck, dashed at a great apped from the bottom right to the t Hore it struck the edge, turned turtle, a. then somersaulted form the top to bott m of the track, finishing up on t level on its four wheels. It was at somerault that Mr. Lombe fell out of the car, and it was obvious from the fact that he lay perfectly still that was very seriously injured. From position on the bridge occupi d by M McIntyre, it was impossible for blu go o Mr. Lambert's aid, and he had wait until he saw the motors from! !! offices deal along the track before his supense was ended. The accident occurred in a deep gully behind the members' u closure, where the banked track rises the height of about 28 ft; and is new; 60 It across. Judging from the injurin inflicted on Mr. Lambert, it is surmisthat the car in overturning struck him w 14:C the head. A very and feature in conn ; tion with the accident was that only t night before Mr. Lambert promised finnces that whether this attempt we successful or not it should be his but eller at record-breaking.

WHAT IS A PHEASANT? Lady Cheylesmore's Hat.

American Customs officials have very few friends, either here or abroad, sa the "Daily Telegraph's " New Yer correspondent and since they have been soizing aigrettes and the feathers of gur. birds adorning the hats of ladies arriving from abroad their popularity has faller below zero. Amoricans to-day, however are enjoying a quiet laugh at the di comfiture of officials who have tried seize the plumes in Lady Cheylesmore hat as she landed in New York from the Cunord liner Lustiania.

Lady Choylesmore had hardly set fork on the pier when she was approached by or firm. two Customs men, who demanded the lengthy leather she was wearing, on the ground that it was excluded by the new law. Instead of complying with the demand Lady Chaylesmore quietly insisted on seeing a copy of the statute, which after much protest, was brought to her. After rending the clause prohibiting the entry of aigrettes or "cothers of coulty." gamo birde," the visitor smilingly inticated dowl, as the claimed Lady Choylesmore was meb on the Cunard a plustonger on the Lesitania, and therefore was not importing a facther,

Not all the women who arrived on the Lautonia word so successful as Lady Cheviosmore. Mrs. Peraival 8. wife of the provident of the American Tobalco Company protested in wain when requested to remove her signettes. She parted with \$100 worth. About \$80 worth of nigrotten wors left behind by wher women who arrived by the steamer,

AVIATION FATALITY AT MANILA.

The first aviation fatality at Manila occurred on the 14th ult., when Lieuteh. and C. Perry Rich, of the Philippine consciousness. Strange as it may seem a death quickly resulting. Lieutenant Rich strates this feasibility of dropping projectiles from an airship upon an enemy below. Just provious to the fatal trip i defective cylinder of the hydroplane had to be replaced by a new one, and the aviator got away at 12.30 p.m. He atlained a great height, and then two fellow-Lieutenants saw the machine swoop downwards. It righted itself for a few seconds and then dashed into the water, turned over, and disappeared. Lieutenant Rich was speedily picked up. and although be breathed with difficulty; denth rapidly supervened, the internal injuries being of an extensive nature.

PRESTIGE OF THE PRESS.

Somowh t of a sensition has been caused in the newspaper world this wook by what was apparently a slip on the part of the ad. vertising branch of Reuter's Telegram Company, states the L. and C. Express of October 31. The company has established a Figuratial Publicity Department, which claimed in one or two circulars sent out that it is able to obtain for its clients " extended editorial reference " in the Press, and suggested that it can influence the editorial o lumns of newspapers. This not only roused the ire of other advertising 800KS & PAMPHLETS A SPECIALTY firms, but brought vigorous protests from newspaper proprietors all over the quintry. Though Renter's spedily withdrow the offending circular, such journals as Th Times and the Daily Mail announce that they will not in future accept both news and ad ertisements from any one sgency

PREQUENCY IN AMERICA.

English and Americans are more subject to appendicitis than other peoples. It is said that, in certain towns in the United States, ninetenths of the population have been operated upon. Appendicitis has become a sport!

This frequency is explained by the defects in the alimentary regime of the Anglo Saxons. Extremely occupied in business, and always on the move, they have not the time to attend to their digestions. They out quickly because they are in a hurry, and they masticate badly because they have bad teeth. The United States is the paradise of doublets: French people also, says this medical informant, cas too quickly. They "expodite" their food, instead of giving It a proper preparation in the mouth, and meat figures too largely on the menus. The dictory is too exclusively formed of ficelt; that is the worst enemy. It would be ortramely adventageous, h tays, to abstain from esting flesh during a certain period. It is possible that this practice, has that of farting and other religious observantes, had its origin hygienic precautions spains the abuses of a too rion dies.

This is a subject that will soon be matter for practical politics. present, as we have already stated, the Commission appointed recently are suffered no damage. sifting the question in all its aspects, and there is every indication that they will receive complete assistance from all connected with the railways. as it is manifest that the majority, if not all, of the Companies, are quite alive to the advantages of making a deal with the State. We are glad that the inquiry is to be public more easily digested day by day than were the statements by witnesses held back for publication along with the report of the Commission, when the record of fact and opinion would be too voluminous for full consideration by all except those intimately concerned. The membership of the Commission, too, is commendable, as it includes men who have had experience in the investigation of truth, others with intimate knowledge of financing and accounting and others in obtaining the remuneration at all as the tary)..... again who have such a degree cement works have been sealed at the reof common-sense us will enable them quest of the Japanese mortgagess of the to differentiate between exceptional company. and abnormal conditions, and beindividual. sufficient, if the work of the Commission is to be done with promptitude and with any degree of finality in the results. Indeed, it may be necepted that the nim, although it is not specifically stated, is to have a full and definite judgment, based on the careful allting of all arguments and facts, on the important question of the nationalisation of the railways. Here, again there must be widely-entertained antistaction that this subject is to be dealt with in a thorough manner. All the interests at stake will be carefully measured, and the public will be ly liw. educated in every place of the subject. Thus, more will be made known as to the operation of State owned rallway in other countries. The State ownership of the whole or part of the railways in some of the Continental countries has been urged as an argument in favour of the absorption of the British system by the Government, It is too often forgotten that military. rather than economic, reasons have dictated this policy in continental stocks. constries. SEQUEL TO THE SOTIO CASE,

AMERICAN OFFICIALS SUED.

Before His Lordship the Chief Justice (Sie William Rece Davice) in Original Jurisdiction of the Supreme our this morning, an soulon was begun by Vincente Sotto, a Filipino journalist, against Thomas Caroy Welch, assistant Erecutive Secretary of the Philippino Islands, and John B. Sawyer, Vice-Consul in Hongkong of the United States of America.

Mrs. F. B. L. Bowley and child left The plaintiff claimed from the defendants the sum of \$4,811.03, being the equivalent of £500 in which the defendants are indebted to the plaintiff underthe provisions of the Habels Corpus Act; 31 Car. II. cap. 2, by reason of their having procured or caused the imprisonment of the plaintiff on a charge of shduction within the territory of the Philippine Islands, well knowing that the plaintiff had been discharged from our tody unties a wrist of Habees Corpus sued out by him when in mistody on the same

Mr. M. W. Slade, K.C., instructed by Mr. W. B. Hind and Mr. Norington (from the office of Mr. G. K. Hall Brutton), appeared for the plaintiff; the firstdefendant was represented by Mr. Eldon Potter and Mr. F. C. Jenkin, who were instructed by Mr. G. Hastings (of Mesers Hastings and Hastings); and the second defendant was represented by Mr. E. H. Sharp, K.C., who was instructed by Mr. M. Reader Hamis (of Messrs, Wilkinson

Mr. Slade, in opening, said there was no dispute as to the facts in this case, and the only question his Lordship would have to decide was a question of law arising on the pleadings. The plaintiff relied on section 6 of the Habess Corpus Act of Charles II. 1879, which stated that no person or persons should be committed twice for the same offence, and that if any person or persons knowingly recommitted or imprisoned them or knowingly caused any person or persons should forfeit to the prisoner a sum of £500. Plaintiff said he had been imprisoned for an offence and released on habeas corpus. Then, at the instigation of the defendants he was imprisoned a second time for the same offence. Therefore he came directly within the words of the section quoted. The first defence raised by the defendants; was that this particular provision of the Habeas Corpus Act was not in force in the Colony. Acts of Parliament prior to 1843 were in force in this Colony by virtue of section 4 of Ordinance 8 of 1873. except in so far as they were inapplicable to the local circumstances of the Colony, and except so far as laws passed by the local legislature modify the Habeas Coraware of any laws passed by the locallegislature modifying the Habeas Corpus

Mr. Slade submitted, with regard to if he could. the first of the two exceptions, that it was for the defendants to prove by evidence what particular peculiarity of this Colony or its inhabitants would render inapplicable a law designed for securing their greater freedom. It would be very hard for the defendant to establish that the liberty of the subject in Hongkong, be be British or foreign, was not of as great importance as the liberty of the subject in England itself. From the carliest times of extradition proceedings, the writ of Habeas Corpus was the approprinte writ for requisitioning a Government for the rendition of an alleged crimmal. Extradition proceedings at Home and in this Colony, except in the case of fugitives from North Borneo or from China, were governed by the English Extradition Act of 1870, and in that Act the right of the secured person to have Habeas Corpus, if circumstances justified the issue of a writ, was expressly recognised by the act.

So. when the wife of the Japanese Ambasader gave a dance at the embassy and invited all the elite at Peking, including the Empress Dowager herself, she suggested that In Shat be asked to come and sing. It seems that both the Ambassador and his wife knew of her revolutionary tendencies. but this did not matter, as they are represented as sympathiasing with her. There was some doubt, however, as to whether she would accept their invitation, las she would bave little or no dealings with foreigners. To their great delight. however, she accepted. The subject of her soug was the deterior stion of China, and her sobbing wails over the distress of the Empire at first roused the anger of the Empress. By and bye, however, the charm of her singing conquered overy one, and so the Empress condescended to converse with her. The result of this acquaintance was that she was invited to the Imperial palace to sing.

Whilst she was there she tried to carry out ben purpose. Once she presented Her Majesty with a splendid pair of chopsticks, made of jade. In reality, however. they were each loaded with cordite, and it was hoped that the Empress would throw them down, and that they would explode. Indeed, in many aways, she tried to accomplish her purpose. But she failed. SOUTH AFRICAN INDIAN PROBLEM.

London, Dec. 2.

Lord Crewe, continuing his remarks to the Deputation introduced by Sir. M. M. Bhownagree, said:-Some of the minor South African officials might be stupid or bound by red tape, and others might be so racially prejudiced that they had no wish to administer the law leniently. His Lordship referred to the question of polygamy, and said it was not elaimed that South Africa ought to legalise this, but polygamons communities demanded reasonable consideration, Indians recognised that they could not enjoy unrestricted inter-provincial movement. He dea clared that there was regrettable 8 drew the attention of Lord Crew obscurity and great difference of opinion in regard to the £3 tax and domicile questions when these were last before the Union Government. The tax does not bring in a large revehue, and does not seem to serve any useful purpose. Many of the South Africans are opposed to it, yet it is the main source of the trouble. The greatest indignation in India has each man even though the was marbeen due to the stories of flogging. These statements demand enquiry. I am glad to see that Mr. Smuts has gone to Natal to make enquiry in person. I need not say that the Imperial Government accepts and

ments made by a responsible Minister like Mr. Smuts. It is altogether wrong and purposeless for anyone to adopt a tone of menace to South Africa. I believe that if South Africa agreed that the solidarity of the Emopire is to be sustained by a form of enquiry which is not solely official, no sentiment of national or personal emour propre ought to stand in the way of such an investigation, which of Indians would not induce the ought to be directed not only into the circumstances of the last few days, but into the substances of the complaints causing the restlessness among the Indians in South Africa.

His Lordship concluded by saying that not only the India Office but the whole Government were giving their unremitting attention to the subject. The Colonial Office were also anxious that complete justice should be done to the Indian subjects of the King in South Africa.

Lord Crewe, replying to questions. said that in stating his conviction that some enquiry not merely official was desirable, he was expressing his own view, but he had no reason to suppose that that view was opposed by his colleagues.

BRITISH COLUMBIA'S INDIAN PROBLEM.

"MATTER OF GRAVE

LONDON, Dec. 3. The Indian question is becoming a matter of grave concern in Canada. The Judge who grant d the Habeas Corpus writ in the case of the expelled Hindu priest on Nov. 21 has now followed with a finding of the Chief Justice that Indiana may only be excluded from British Columbia on account idiocy, disease, crime or mendicancy, as in the case of other British subjects.

The decision is not relished in British Columbia, where exclusion is strongly favoured. Consequently it seems certain that new legislation will be demanded to regulate the Oriental influx.

It is noteworthy that every constituency in British Columbia supports the Borden Government, which will have a delicate task in adjusting local feeling with Imperial considerations.

HONGKONG TIDES.

The tide table give below has been compiled at the Nautical Almana Office in London from the result of the analysis of observations taken by means of an attachment time recording medicine in the Water Police Basin at Taim Sha Tan during the years 1887-8-9.
The sero of the bebie corresponds with the sero of the sounding in the Admiralty. Charts which has been found to be 4 feet

inches below mean see lavel. The btain the depth of water on the tide gauge at the Victoria Naval Yard add 5 feet 4 inches, and on the gauge at Lamons Dock, Aberdeen, add 10 feet 6 inches to the height given in the table.
